

Auscan are your hands on specialists in remote extractive industry support. Our highly trained medical, emergency response and health and safety professionals deliver trusted and unwavering support to those far reaching and challenging work sites around the world and around the clock.

We offer a number of supports services including Emergency Medical, Safety, Occupational Health, Medical Staffing, Primary Care and Fire & Rescue.

Emergency Medical Services

In the most critical moments, Auscan's Emergency Medical Services (EMS) stand ready to provide urgent care right at your site. Our expert team delivers pre-hospital treatment and ensures seamless transportation to healthcare facilities when necessary.

Our on-site EMS offerings include:

- Immediate First Aid and response
- Support from highly trained Primary and Advanced Care Paramedics
- Advanced trauma and cardiac life support capabilities
- Strategic deployment for optimal response, ensuring swift stabilization and efficient recovery to site health facilities
- Reliable transportation to on-site Health Centres or provincial healthcare facilities as needed

Primary Care

We provide on-site diagnosis, treatment, and management of non-occupational illnesses and injuries - keeping your team healthy and productive.

Our care covers a broad range of everyday conditions, tailored to the needs of your workforce including:

- Chronic or emergent Cardiac Disease (e.g., High Blood Pressure, Heart Attack, Stroke, Arrhythmia)
- Chronic and emergent Respiratory Disease (e.g., Asthma, Respiratory Infections, Allergies)
- Metabolic Disease (e.g., Diabetes Type 1 & 2)
- Environmental and Seasonal Illness (e.g., Influenza,
- Heat/cold exposure, Allergies)
- Skin disorders (e.g., eczema, dermatitis)
- Musculoskeletal disorders (e.g., arthritis, tendonitis)
- Communicable disease (e.g. COVID-19, influenza)

Medical Staffing

We deliver trusted healthcare professionals for remote and northern projects. With extensive experience and firsthand knowledge of these regions, we understand your unique needs. Every clinician is rigorously vetted to meet provincial standards—ensuring safe, reliable care for your team.

Occupational Health & Hygiene

Our Occupational Health & Hygiene services help protect worker health and keep your workplace compliant. We combine on-site medical care with exposure monitoring and practical risk controls to create safer, healthier worksites.

Our on-site Occupational Health & Hygiene offerings include:

- Workplace injury/illness care and monitoring
- Disability management – assessments, reporting, fitness-for-duty
- Referrals for exams and treatment
- Health assessments – hearing, lung function, vision
- Biological monitoring and medical surveillance
- Alcohol & drug testing and education
- Workplace vaccinations (e.g. influenza)
- Ergonomic and pre-employment assessments
- Coordination with external medical professionals
- Maintenance and calibration of medical equipment
- Support for client health & safety programs
- Occupational hygiene – identification and control of noise, dust, vibration, and chemical hazards

Fire & Rescue

We understand that when emergencies arise, having a well-trained and prepared team can make all the difference. Our Mine Rescue and Emergency Response Teams are equipped to handle the unique challenges of emergency scenarios within mining environments, ensuring the safety and well-being of every worker.

Our Fire & Rescue services include:

- Mine Rescue and emergency Response Teams
- IFSAC/ProBoard certified Fire Fighters
- Training staff for emergency related activities.
- Consult and advise on
- Emergency Preparedness
